Little guide

EDIT IN GOOGLE SLIDES

Go to the **File** menu and select **Make a copy**.

You will get a copy of this document on your Google Drive and will be able to edit, add or delete slides.

COLOR PALETTE

#181818

#D3D3D3

#88398A

#FFFFFF

#562457

Hello!

I am the best R-Lady

I am here because I'd love to show you something.
I work in some awesome company. You can find
me at @username.

1. Transition headline

Let's start with the first set of slides

“ *As Obi-Wan Kenobi may have
said in Star Wars: “Use the
source, Luke!”*

—Barry Rowlingson

*(answering a question on the documentation of some implementation details)
R-devel (January 2010)*

This is a slide title

- Here you have a list of items
- And some text

BIG CONCEPT

You can also split your content

White

Is the color of fresh snow.

Purple

Is the color of purple.

In two or three columns

Column 1

First column.

Column 2

Second column.

Column 3

Third column.

A picture is worth a thousand words

Nice image!

#rdogladies

#chickenladies

#rcatladies

This is how your
charts **could** look

Or with **ggplot2**

Well, this one is a bit ugly but you get the idea.

89,526,124\$

That's a lot of money

185,244 users

And a lot of users

100%

Total success!

Our process is easy

first

second

last

Now you can use any emoji as an icon!

And of course it resizes without losing quality and you can change the color.

How? Follow Google instructions
