EDIT IN GOOGLE SLIDES

Go to the **File** menu and select ***Make a copy***.

You will get a copy of this document on your Google Drive and will be able to edit, add or delete slides.

COLOR PALETTE

#181818

#D3D3D3

#88398A

#FFFFFF

#562457

Hello!

I am the best R-Lady

I am here because I'd love to show you something.
I work in some awesome company. You can find
me at @username.

1.

Transition headline

Let's start with the first set of slides

“ *As Obi-Wan Kenobi may have
said in Star Wars: “Use the
source, Luke!”*

—Barry Rowlingson

*(answering a question on the documentation of some implementation details)
R-devel (January 2010)*

This is a slide title

- Here you have a list of items
- And some text

BIG CONCEPT

You can also split your content

White

Is the color of fresh snow.

Purple

Is the color of purple.

In two or three columns

Column 1

First column.

Column 2

Second column.

Column 3

Third column.

A picture is worth a thousand words

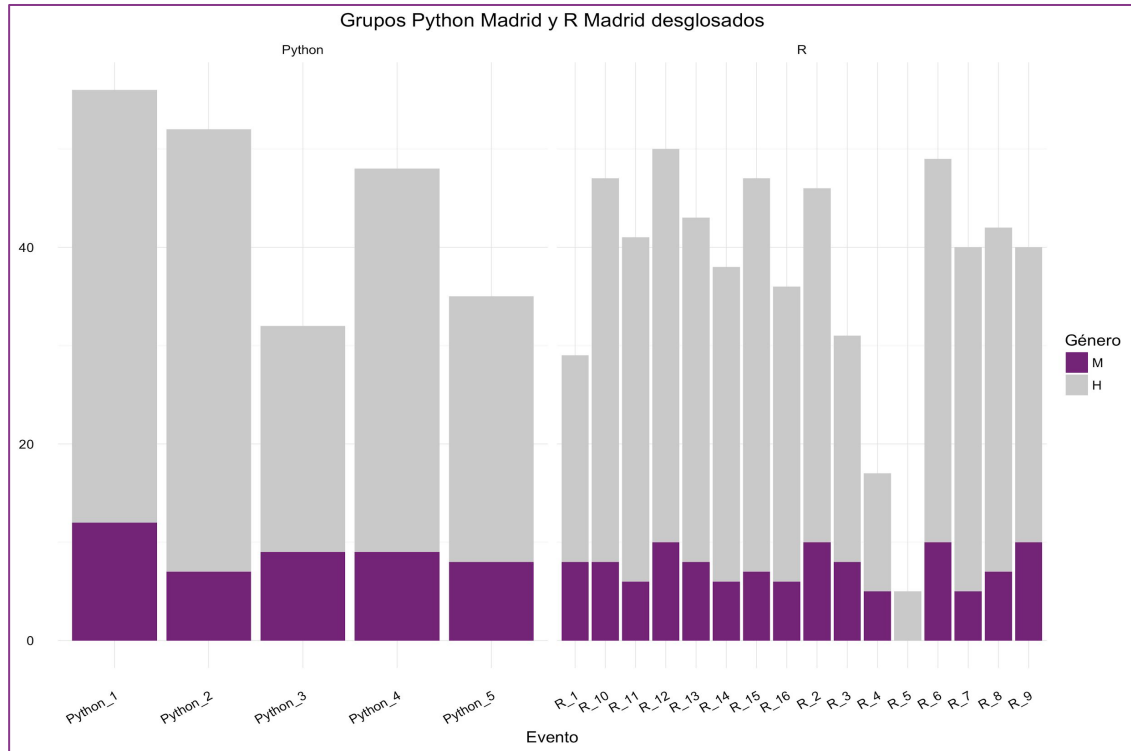

Nice image!

This is how your
charts **could look**

Or with **ggplot2**

Well, this one is a bit ugly but you get the idea.

89,526,124\$

That's a lot of money

185,244 users

And a lot of users

100%

Total success!

Our process is easy

last

SlidesCarnival icons are editable shapes.

This means that you can:

- Resize them without losing quality.
- Change line color, width and style.

Isn't that nice? :)

Now you can use any emoji as an icon!

And of course it resizes without losing quality and you can change the color.

How? Follow Google instructions
